Investigator	Activity
Team 1	Started with glass divination; connected with a male spirit but he was very vague with giving us information. We could hear footsteps and had a couple of light bangs around us.

	<p>We split into 4 groups, one in each corner. Upon calling out we linked with 2 children called Amy &amp; Ben. Again very reluctant to give us information. We all joined hands and played ring a ring of roses. &amp; this helped with energy. We felt Amy &amp; Ben sneaked into the place when no-one else was around to play. When we asked them this they immediately left.</p> <p>We then went to another area above the gunpowder area. We connected with John Stevens or Stevenson. He was a caretaker of the building and was not pleased at what was happening with the building now days</p>
Team 2	<p>Heard a cat meow. Two stones were thrown Cold air was felt across hands Could hear people talking Something hit pipe near display stand when group was standing near</p>
Team 3	<p>Felt presence of a woman and two men, Joseph and Jonathan - 1928 On the Dictaphone heard a woman's intake of breath Rachel thought she saw the face of a woman Tansy, felt very cold and felt presence of woman who didn't know she was dead Heard footsteps and banging on the floor</p>

### The Admin Block

Investigator	Activity
Team 1	<p>Started in the room upstairs where we held the group séance. Tried glass divination, and had to break because 2 team members felt sick. We all joined hands and called out loud. EVERY team member was swaying and it felt like the room was slowly spinning. Downstairs in the ladies toilets we called out and heard a chair being pulled along the floor in the adjacent room. We went to this room. Felt there was a male energy sitting in an armchair. We tried EVP when we all took it in turns to ask a question. On the first occasion we heard a noise on the tape as if a mobile phone was about to ring. No one had their phone turned on. We tried it again and had random clicks on the tape. On the third occasion we had random clicks again. We then went to the room to the left on the entrance and tried glass divination. The glass was being very random and not making sense. Jenny thought it might be an elemental and urged us all caution. We then went to the room where the pentagram was on the floor. Both Kevin and Keith felt uneasy in here. The hairs were up on the back of our necks and we both felt nervous. All the ladies felt fine. We tried EVP again and upon Kevin asking if the female spirit was beaten by a man there could be heard a women's voice saying yes as he spoke. As we left the vigil area an artificial flower was in the middle of the entrance to the room. It was earlier seen on the stair case. There was no wind and it wasn't there</p>
Team 2	<p>One of the team had her hair moved apart Another team member had shoulders pressed down on Contacted a female spirit using rods</p>
Team 3	<p>Names of George and Jean felt. Rachel got name of Edward Peterson, Marc confirmed he had name come through earlier that night. Felt was young man in his teens/early twenties. Dictaphone made clicking/tapping sounds Very sick feeling and aching shoulders Shadow was seem in one of the rooms off the corridor upstairs Rachel heard a groan downstairs Pebble thrown upstairs in room where George was felt</p>

### Room 309 and Education Room

Investigator	Activity
Team 1	<p>In Room 309 Marc called out and connected with a spirit called Matt. He was asked to throw something and a flattened bottle top landed behind Marc. When touched it was warm. The night was very cold and if it had been on the floor for sometime it would not had been warm to touch. Matt was "after" Jenny &amp; Marc. We went to the education room, where once again Matt came through and threw an identical bottle top in Marc's direction. We tried glass divination and felt the elemental had returned. We lastly tried automatic writing where Keith had written words in an old English style. Words: Go Away and I have told you the truth, believe me I know more! Now be gone!</p>

	1939
Team 2	Using dowsing rods, connected with young man. Was not happy here, couldn't read or write. Didn't know he had passed over but didn't want help. Upon trying glass divination, the glass didn't move but the top got very warm, considering it was a bitterly cold night this was interesting. Strong smell of gunpowder suddenly appeared. One of the team felt very dizzy when on the glass
Team 3	Felt presence of children and a man. Glass moved Temperature dropped Rachel got name of Lizbeth Sharon felt spirit on man - "who do you think you are when you're at home, of course I can you silly girl, I like your accent" In 309 area heard whistling
