Report by Rachel and Lee Murphy

© Paranormal Tours Limited

Investigators: **Team 1:** CJ Linton, Emma Linton, Ingrid Linton, Liz Egan **Team 2:** Susan Reay, Emma Plummer, Cathering Woodman, Nicola Currie, Lucy Jackson, Daniel Hands. **Team 3:** Helena Gabriel, Jillian Sharpe, Mark Sheldon, Lisa Sheldon. **Team 4:** Nicky Windmill, Nicola Marshall, Mr and Mrs Wood.

Specialists: **Clairvoyant Medium:** Paul Hunt **PT Crew Lead:** Lee and Rachel Murphy. **PT Crew:** Paul Ashworth

This report is a compilation of the Ghost Walk and the group vigils conducted throughout the night.

Minsters Suite (Glass Divination Experiment)

Investigator	Activity
Paul Hunt	Felt confused and anxious. He felt the room was not safe. He became depressive and could feel a gentleman pressing down on his shoulders. (confirmed form previous investigations)
Paul Hunt	Felt that a lady had been tied up in this room for over 10 days.
Paul Hunt	Felt that there were 8 spirits in total who came in visitation and was given the name Annabel and Mary-Lee. (Mary confirmed)
Paul Hunt	Picked up on the smell of burning flesh. He felt that witchcraft had taken place in the room. He felt that someone had had their left hand chopped off.
Team 1	Witnessed several flashes of light.
Team 3	Heard a few taps and creeks in the corner of the bedroom. During a glass divination experiment experienced violent movement and a tendency to move towards Jill only.
Team 3	Heard a loud bang coming from the bedroom, and just as they were leaving the room a long dragging sound was heard. They checked the bed and it looked like it had been moved away from the wall.
Team 2	Saw a green light flickering blue above the glass during a divining experiment.
Team 2	One member of the team had their hair tugged and they experienced breezes across their hands. Whilst glass divining there was a loud bang coming from the corner of the room.
Team 4	Connected with a man named Eddie through the glass divination. Glass was very slow to move but then moved according to shapes drawn by Paul who was not touching the glass. First the glass moved in the shape of a triangle, a circle with a cross drawn in the middle and then a number seven.

Lady Pecketts Room and St Catherine's Room. (Dowsing experiment)

Investigator	Activity
Paul Hunt	In Lady Pecketts room. Paul picked up on a lady in her late 50's. She had passed away in the room through illness. Paul believed that this lady would have been seen. He felt that she was not here to harm anyone and he became quite emotional. This experience left him very drained. Picked up on a rocking chair where a child would have been nursed. (other mediums have also picked up on this on previous investigations)
Paul Hunt	In St Catherine's Room picked up the energy of a young man, telling stories to children aged 11-13. They needed to be brave he felt this had connections to the war. He also felt home sickness that connected with the room.
Team 1	In both room had high readings from the Canum. (no explanation found)
Team 3	Picked up on the energy of a little boy who copied Paul's drawings on the planchette. They were given the name Arthur aged 10 years who passed away in 1698. Then the room went heavy and we felt the presence of a male energy.
Team 2	Could smell shoe polish and witnessed slight changes to people's faces when scrying. (no explanation found)
Team 4	In Lady Peckett's room connected with a lady named Jane. Who wore a red dress with long red curly hair. She lived in the building post 1850. The team witnessed a change in Lucy's hair and facial features whilst dowsing.

The Shambles (Scrying experiment)

Investigator	Activity
Paul Hunt	Sensed happy male and female presence in the room. No negativity with them believed that they owned this part of the building.
Paul Hunt	Sensed the presence of a strong lady who he felt was bitter and twisted towards children. He felt that the children tormented the lady. He believed that the room had once been used as a nursery.
Paul Hunt	Felt that the lady would have been seen standing at the window. She must have fallen or jumped from the window. Confirmed
Paul Hunt	Sensed a strong man with very angry sensations. He felt that the man was an intimidating man. He had a pointy nose and high eyebrows and linked to the military. Confirmed but not necessarily in that room.
Team 1	Heard various banging noises. Attempted glass divination but only experienced slight movement.
Team 3	Heard a few bangs. They attempted scrying. Dave's face changed into a guy with a long face and dark hair. Helena's face also changed into a male's face. Lisa's face changed into a male also with long dark hair with a beard and moustache. Rachel's face changed into a child, with what seemed like a false glass eye and her face seemed to look slightly melted/burnt. There has been a fire in this room. A boy has been sensed previously in this room please see [previous reports for more details.
Team 2	Before entering the room Nick heard a girl's voice giggling behind the door. The humidity in the room changed from 47% to 63% in a short space of time. This room is reported to have been used as a brothel so this could explain the girls giggle.
Team 2	Lee felt his hand being touched during a scrying experiment. Sue Smelt a waft of ladies perfume during the scrying experiment. Again as used as a brothel this could be why the connection to women's perfume has been felt.
Team 2	Heard a loud thump and a distinctive shuffling noise in the hallway between the bedroom and bathroom.
Team 2	Sue saw a green laser like spot move across the closed bedroom door.
Team 2	Experienced movement on the EMF.
Team 4	Lucy felt as if she was being pushed and felt dizzy.
Team 4	Nicky became very emotional for no apparent reason and felt very uncomfortable also.
Team 4	An orb was seen in front of Nicky. A flash of light was witnessed by Dan near to where Paul was standing.

Function Room (Planchette experiment)

Investigator	Activity
Team 1	Temperature measured on planchette of 37 ^o whereas the table directly beneath measured 24 ^o . (no explanation found)
Team 1	The team experienced cold temperatures. (no explanation found)
Team 3	Team felt temperature changes in the room. Jill connected with the spirit of a little girl, during the planchette experiment the little girl responded to Jill by drawing a knife.
Team 3	Helena then connected with a gentleman, he responded to questions and confirmed he was afraid of Helena.
Team 4	Felt slight breezes and changes in temperature. (no explanation found)

Various trigger objects: No movement reported.

Trigger object and motion detector experiment : No movement detected.
