

Paranormal Tours

Wymering Manor

Portsmouth, Hampshire

13 December 2003

Report by Nick Marsay & Andrew Marsay

© Paranormal Tours Limited

Investigators : Andrew Marsay, Nicholas Marsay, Laurence Fox, Maria Jacklin, Jon Bailey, Jessica Bailey, Tristan Ballard, Andy Dowling, Melissa Bell, Mike Tolson, Danny Houghton, Gary Fenton, Joshua Rayner, Charlotte Barber, Kevin Barber, Simon Martin, Nigel Spiers

Specialists: Celia Thomas-Gale (Clairvoyant Medium), Dave Scanlan (Location Historian & Ghost Hunter), Richard Jacklin (EMF & NID Specialist)

Arrival 18:15 - Courtyard

Time	Investigator	Activity
18:15	Celia	Upon entering the gates, Celia felt nauseous
18:30	Celia	Was being drawn to the church opposite, felt that there was a strong connection between the buildings. Correct, the Manor was once connected with the church

Dining Room

Investigator	Activity
Celia	Heard whispering of children coming from the corner where the coffee machine is. We set up a NID (Negative Ion Detector) to try and detect any paranormal activity.

22:00 - Room 7

Investigator	Activity
Andrew, Tristan, Jos, Charlotte	<p>Andrew had been told by Dave that previous investigations have captured the presence of a spirit energy of a monk in Room 7. He has been seen looking out of the window and can be seen from the car park too. Also previous investigations have narrowed down the time of this occurrence between 10:15 - 10:18 and 22:15 - 22:18.</p> <p>At 22:00 a webcam with a motion detection sensor was set up towards the window and four investigators sat patiently in the dark with cameras at the ready. A test was performed to make sure that the webcam would be triggered if movement was detected.</p> <p>The other members of the investigation braved it outside in the cold and stood watching up at the window. 22:15 came and 22:18 went and the investigators stayed there until 22:35, unfortunately no appearance of the ghostly monk.</p>

23:00 - Start of Ghost Walk - Courtyard

Investigator	Activity
Celia	Connected with a lady running towards the church, felt that she was a schoolteacher. She was also a bell ringer for the church. She felt that she was from around 1840 and was connected with the vicar around that time.
Celia	Was told that there was a strong connection with a gentleman called Thomas Tompkins and that his remains were in the church graveyard.
Celia	Connected with a Reverend James who may have passed from a throat condition. His physical description was that he was portly, bald on top with curly hair at the sides and back and a moustache and beard. Felt that he had six children.
Celia	Another energy came through and it was felt that he had taken over from Rev. James. Described as a blood thirsty man who ordered people about and had a connection with ships.
Celia	Was shown that there was a mill or bakery not far away which the schoolteacher used to visit
Celia	In the car park a connection was made with a hanging, a man called David Martin that happened around 1770. Felt that smugglers were hung around this area as an example. (Dave confirmed that there was a gal-

	lows around this area in the past and smugglers would have been hung to deter them)
Celia	Was shown a 'Hobbit' and felt that there had been some form of black magic and wizardry. Also there was a connection with a stone circle in the area. (One of the children that live in the Manor has seen a man in a pointed hat wandering about, looking like a wizard)
Celia	Connected with an energy called Mary who was a servant in the house.
Celia	Felt that there was a connection with a man called Barber, who was on trial for murder. (Dave confirmed that there was a trial for murder)
Celia	Also connected with children's energies, told that they were in the cellar
Danny & Mike	Located the cellar for Celia, using the divining rods (Dave confirmed the cellar was where they indicated)
Melissa	Using the divining rods, connected with the energy of the schoolteacher by the main gates
Jos	Located an energy by the front door with the use of the divining rods which crossed each time from any angle at the same point. Celia could feel an energy there but it was not showing itself to her.

Main Hall

Investigator	Activity
Celia	Connected with a lady in chequered dress coming down the left hand stairs
Celia	Connected with an energy of a child that was under the stairs, dated 1740, named Alfred. He was being punished for some reason
Celia	The flooring that she was shown was an ornate Italian marble and also Welsh slate

Common Room

Investigator	Activity
Celia	Felt at sometime that this would have been a drawing room. Bad news had been received in this room from someone who had died in the Crimean War, by the name of Wallace.

Room 7

Investigator	Activity
Celia	Celia felt that Rev. James had passed away in this room. He had become jaundiced and felt that leeches had been used to try and cure him, dated 1820-1830

Upper Stairway (above Room 1)

Investigator	Activity
Celia	Connected with two servants, Rose and Mary. Rose was thought to be Irish. She hid her Rosary beads and lied about being Catholic to get the job. Felt that she may have been a nanny, 1865-1870. Felt she was a terrible cook but an excellent sewer.
Celia	A lady called Martha came forward, dated around 1770. Felt that she had a very nervous disposition

Room 1

Investigator	Activity
Celia	Felt that this room would have been one of the main entertainment rooms of the house at some time. She could see a piano in the room and people dancing. Also felt that someone had died suddenly in the room.

Experiments - 01:00 - 06:00

Room	Investigator	Activity
Balcony	Simon, Nick	Left a trigger object of a heart. No movement throughout the night
Upper Stairway	Simon, Nick	Drew around various coins as a trigger object, slight movement recorded
Dining Room	Nick, Melissa	Set up a tray with flour, leaving two padlocks as trigger objects. No movement throughout the night
Dining Room	Celia	Left an orange ball on an upturned cup for the children in the corner to play with. No movement all night
Common Room	Charlotte, Nick	Set up a motion detector, dictaphone and a walkie talkie (on vox) to record any EVP for one hour. Motion detector did not go off, although the tape is still being analysed.
Room 1	Nick	Left a dictaphone running for one hour to capture EVP. On listening to the tape there are some anomalies however further analysis is needed.

Vigils - 01:00 - 06:00 (These are a selection of reports from the investigators through the night)

Room	Investigator	Activity
Main Hall	Celia	Connected with an energy called Martha from around the 1950's
Room 2	Andrew	Sat on a bed by the window, felt as if someone was stood behind watching, felt uncomfortable
Room 2	Jessica, Andrew	Saw a spark of white/blue appear on the wall heater. No explanation found
Room 2	Jessica, Jon, Andrew	Saw a further flash on a different part of wall heater, Jon captured this on camcorder
Room 4	Maria, Celia	Dowsing rods used and Celia connected with an old energy (approx. 600-700 years old) near the fish tank.
Room 4	Melissa	Severe temperature fluctuations ranging from 22oC down to 11oC with no apparent explanation
Room 4	Mike, Melissa	Captured quite a few orb anomalies on camcorder, need to analyse further
Room 4	Andrew, Melissa, Danny	Andrew was stood in the small first archway which he had been told by Dave was in fact a supposed vortex. About two inches from the top of the archway the temperature was 4oC warmer. Andrew then felt a static discharge from the area and without telling the group asked someone else to feel the atmosphere in the archway Danny felt this and said that it was warmer than down below which corroborates what Andrew was feeling. Andrew then went back in the archway with Melissa filming. The top of his head went ice cold then over the top an orb anomaly flew past his face, down the chest and over the left arm. Andrew could not see this with the naked eye however felt the hairs on the back of his hand stand up with a static discharge.
Room 4	Maria	Felt severe temperature drops in the last third of the room.
Room 4	Andrew	Saw a shadow move near the fish tank
Room 6	Richard	Recorded temperature drop from 22oC when the vigil started down to 16oC at the end
Room 6	Andrew, Melissa, Danny, Mike, Maria & Richard	During an ITC (interactive trans-communication) session with a digital dictaphone saw various flashes of light and recorded orb anomalies across the road.
Room 6	Andrew, Melissa, Danny, Mike, Maria & Richard	Richard was drawn to the priest hole, wanted to go in but could bring himself to do it. Andrew volunteered to go in first. Upon entering, Andrew turned around to face the group and was grabbed on the left shoulder with an electric shock sensation leading to pins and needles. Andrew felt a bit uncomfortable and Danny swapped places. Upon entering the area he felt an instant pins and needles sensation on his face which then moved down to his arms and chest. Mike went in after this and felt no difference. Maria went in last and knelt on the floor in a praying position for about 10 minutes, again no sensations were felt.
Room 6	Danny, Andrew	While Maria was in the priest hole, a severe draft was felt on the floor under the bed. No explanation found
Room 6	Danny	Danny almost fell over as he went really dizzy looking at Maria in the priest hole. This may be down to tiredness
Room 6	Richard	Was laid on one of the beds when he saw a small ball of light at the end of his shoe. He watched this move about for a little while then moved his foot when the light anomaly vanished
Room 6	Danny	Danny was sat on one of the beds by the door when one of his shoes rolled over for no reason at all.
Room 6	Celia	Connected with the energy of a woman having a miscarriage, Celia felt the pains in her stomach. (Dave confirmed that the building was used once as an abortion clinic so Celia may have been witnessing an abortion rather than a miscarriage)
Room 6	Celia, Laurence	Saw the shadow of a tall hooded figure of a man by the door (Dave confirmed that this is a similar description of a monk that has been seen throughout the top floor of the house)
Room 7	Andrew, Tristan, Charlotte	Was drawn to the end of the room where the doorway is boarded up which leads to room 6. Felt that there was someone there watching. Tristan recorded a 10oC temperature difference. Charlotte felt very uncomfortable sitting in the area and had to move to the opposite end.
Room 7	Kevin, Nigel	During another ITC session, Andrew was asking questions when Kevin and Nigel saw a streak of white light zoom across the wall from the doorway towards Andrew.
Stairways	Nick, Simon, Jon, Jessica, Jos & Gary	Saw unexplained lights flashing from the upper levels and coming down the stairways. Jon recorded some of the anomaly on camcorder
General	Gary, Jos	Gary and Jos took an impressive amount of digital photographs and captured some orb anomalies. This will be placed in the multimedia section
